OLD BUSINESS

Siding & Rot at Building 10690

- Repairs to siding are scheduled for the end of October now.
- Extensive damage to the building was discovered behind the siding due to a long-term infestation of Carpenter Ants. The ants attracted the woodpeckers causing the damage to the siding.
- Western Exterminators have begun treating all buildings for Carpenter ants and treatment will be ongoing.
- When the building is completed, the remaining buildings will be assessed for ant damage and scheduled for repairs.

Compared to the current inflation rate of 8.26%, the proposed increase was minimal.
